

Capability Statement

Mosaic Group is a **Certified Women-Owned Small Business** that provides solutions-driven support and management consulting services across the **public health** ecosystem. We help transform systems and communities to achieve **health equity**, improve **population health**, and lower **healthcare costs**.

We work with federal, local, and state government partners, hospitals and health systems, healthcare payers, policymakers, community organizations, universities, foundations, and associations, and provide strategic consulting, change management, and organizational development services, and leadership and guidance on the design and implementation of effective and sustainable cross-sector and community-driven healthcare improvement solutions and models.

With specializations in **community health, behavioral health, substance use response, prevention, harm reduction and MOUD, maternal health, child welfare, human services, community organizing, and health equity**, we are a team of **practitioners with field experience** in public health, community and behavioral health, health care administration, change management, program planning, and evaluation. We are nurses, behavioral health clinicians, public health experts, and peer recovery coaches striving to lift communities and systems to achieve health equity.

OUR DIFFERENTIATORS

- Real world experience as practicing nurses, behavioral clinicians, social workers, researchers, and hospital administrators.
- Track record of innovative, evidence-based whole-health solutions.
- National recognition for effectively implementing community health and human services strategies to achieve health equity.
- Strong past performance and trusted relationships with public and private sector partners, including as a sub-grantee.
- Sophisticated understanding of healthcare payment and delivery models, social determinants of health, and systems integration.
- Experience working in and with hospitals, including large health systems, community hospitals, and critical access hospitals, primary care practices, agencies, school-based health centers, detention centers, and community organizations in urban and rural settings.
- Deep expertise in community health, behavioral health, substance use response, prevention, harm reduction and MOUD, maternal health, child welfare, human services, community organizing, and health equity.
- Compassion and accountability: we track and measure our impact.

SAMPLE PAST PERFORMANCE

- **Maryland Department of Health**—Scale substance use, overdose response, and mental health interventions in hospitals, primary care, correctional, and school-based settings (SAMSHA).
- **West Virginia Bureau for Behavioral Health**—Scale substance use and overdose response in hospital settings (CDC).
- **National Association of County and City Health Officials**—Scale hospital substance use response programs in Michigan, West Virginia, Kentucky and New Hampshire and build capacity of local health departments in five jurisdictions to embed peers in hospital emergency departments (CDC).
- **Georgia Department of Public Health**—Design, convene, and implement a community health collaborative to promote cardiovascular health equity across rural and urban counties in Georgia (CDC).
- **ICF International & Tanaq Management Services**—Serve as technical assistance (TA) partner for the CDC Overdose Data 2 Action National Technical Assistance Center (CDC).
- **National Alliance of State and Territorial AIDS Directors (NASTAD)**—Develop toolkit development for the CDC National Harm Reduction Technical Assistance Center (CDC).
- **Maryland Department of Health**—Develop statewide standards and processes for certifying community health workers (CHW) and accrediting CHW training programs (MDH); provide TA to agencies and organizations to develop and implement CHW training programs (CDC).
